

PARKING CONTROL – PUBLIC PROPERTY

Previous policy number: 1.3.3

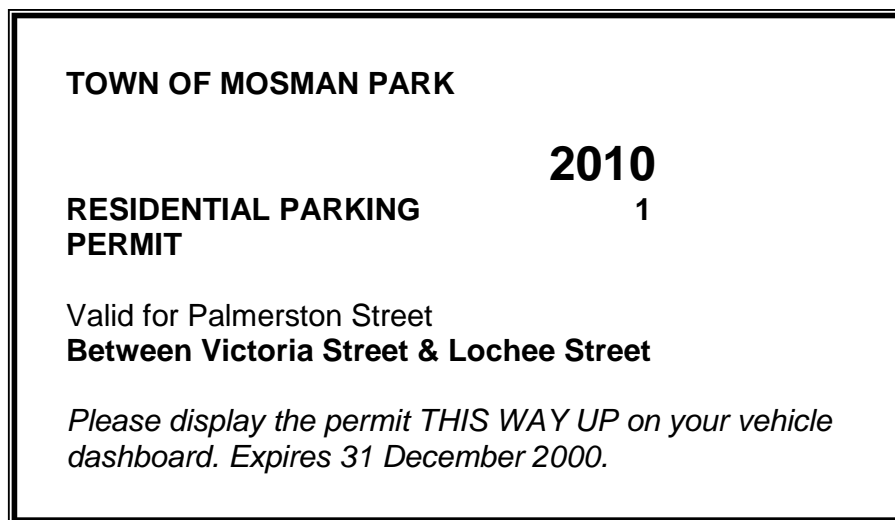

Policy Statement

To establish guidelines and/ or specifications for the enforcement of parking restrictions on public property.

Policy Details

Where a property is located within the confines of resident only parking restrictions, then each property which has persons in residence is eligible for one parking permit.

The parking permit shall include a permit number, the parking area and the year of issue as shown in the example below:

Residential parking permits shall be reissued each calendar year and consecutive years will be differentiated by different colour permits.

Where a resident requests an additional parking permit the application must be submitted in writing addressed to the Chief Executive Officer.

Approvals shall be subject to the following criteria:

- i. The property has no access to verge parking as determined by the Chief Executive Officer; and
- ii. The property has only one on site parking facility (e.g. garage, carport, hardstand).

The Chief Executive Officer is authorised to approve the request subject to it meeting the above criteria. The additional permits are limited to one per property.
